PLEASE NOTE

Models attending training model appointments with HMABTI, understand that they are receiving treatments purely on the basis of acting as a model for individuals who are undertaking professional training and that as a model client you are doing so on the basis to primarily help with the learning needs of our students. Whilst we make every effort to ensure client satisfaction, we cannot guarantee the same results and protocol as a full price treatment with an experienced Professional due to the fact that it is a training session.

Please remember that once your appointment is confirmed, we do rely on your attendance to facilitate a student's opportunity to practice and demonstrate their competency. If you therefore need to cancel, please ensure that you allow us enough time to enable another client on the waiting list to have the opportunity to take the appointment.

Please help us to help you when booking by clearly stating the area/s you require treating (i.e., dermal filler lips, marionette lines).

Model Session Appointment Information

Treatment pricing is based on the cost of resources used in the treatment provision and are applicable to the model treatment you attend. Any additional treatment if requested will be charged at the appropriate additional cost. We reserve the right to change pricing in line with manufacturers resources costs. Training model appointments are provided purely under our training model terms and conditions along with client consent agreement for each relevant treatment. For full terms and conditions please refer to <https://helenmcguinness.com/training-model-client-application/>

If you are a new client, please email a photo so we can check suitability for treatments.

Appointment sessions are limited to the time slots allocated; therefore, we are only able to offer treatments that can be performed within the treatment period time. Appointments fill up very quickly so it is best to book as early as possible as we are unable to guarantee that appointments will always be available.

HMABTI reserves the right to select models based on suitability and may refuse treatments if the indications are not suitable for training purposes.
